

The image shows a laptop screen with a code editor open. The editor has a dark theme and displays TypeScript code for a component named `HomePage`. The code includes a `Save` button handler that logs a message and pushes an item to `this.items`, and an `editPrompt` function that creates an alert dialog with two input fields (name and quantity) and a `Cancel` button handler. The file explorer on the left shows the project structure with files like `app.module.ts`, `groceries-service.ts`, `home.html`, and `home.ts`. The Windows taskbar at the bottom shows the Start button, task view, and several open applications. The system clock indicates 11:59 AM on 4/10/2021.

```
108 }
109 },
110 {
111   text: 'Save',
112   handler: item => {
113     console.log('Saved clicked', item);
114     this.items.push(item);
115   }
116 }
117 ],
118 },
119 prompt.present();
120 }
121
122 editPrompt(item, index) {
123   const prompt = this.alertCtrl.create({
124     title: 'Edit Item',
125     message: 'Please edit item...',
126     inputs: [
127       {
128         name: 'name',
129         placeholder: 'Name',
130         value: item.name
131       },
132       {
133         name: 'quantity',
134         placeholder: 'Quantity',
135         value: item.quantity
136       },
137     ],
138     buttons: [
139       {
140         text: 'Cancel',
141         handler: item => {
142           console.log('Cancel clicked');
143         }
144     ]
145   });
```
